Marc.

Here is a revised update for Willamette/PNW along the lines that Rick requested.

Bob

Revised WESP bullets for SHC update 1.5.12.docx

Thanks for sending in your Q1 task updates for... 01/05/2012 07:44:50 AM Marc Russell

01/05/2012 07:44 AM Date: A few translations Subject:

Thanks for sending in your Q1 task updates for me to put together our Project update on todays RAP call.

Rick sent the following few points for us PAL's to report on:

In particular, I would like to hear a bit about what you have been doing but focus on:

How do your tasks provide you as a PAL the information to meet the topic goal.

How you will be helping Omocote, Alabama and Bigloski, Texas become more sustainable--what do you bring to the table to allow the communities to become more sustainable

How your work will help in balancing environmental, societal, and economic elements of sustainability How your work relates to the others in your project/theme and to theme 4 need

Are you working in the field, and if so, where and do you have a solid regional contact engaged in the work.

Could you take a look at the info you sent me and organize/modify them to fit the above questions?

I present this at 1 PM CST today so if you don't get to this I will be working on organizing what you have sent to answer Ricks questions.

Marc
